This is one of the subjects discussed by the Councillor at the conference along with the question of finance of the Bangalore City Municipality. The file of papers relative to this subject was ~~rece~~ received back in office from the Assistant Secretary with other bulky files that had also been sub-mitted to the Councillor with the City Municipal Budget for the current year. The Assistant Secretary told me that the type written Office note on the General finance of the Bangalore City Municipality was kept back by the Councillor for recording his orders, and directed me in the meantime to arrange carefully the file of papers relating to the City Water Works. This I have done. The type-written office-note has not yet been received in office with the Councillor's proposals.

2 It is respectfully submitted

submitted that the papers herewith submitted require orders of Govt. & reminders have been received both from the Comptroller and the Chief Engineer soliciting early orders in the matter.

3 Submitted for orders as to whether this file may be submitted to the Councillor at Delhi, keeping back all the bulky files that contain references cited in the said office-note.

5. There has unfortunately been a lot of avoidable confusion in this and in several other financial matters connected with the Bangalore City Municipality. The Budget file is, I believe, now before the Dewan. In dealing with it I refrained for obvious reasons from going into this and certain other controversial questions.

Amendment

6 For the purposes of the present reference, it is sufficient for me to say that there were two sanctions, one of Rs.6,000/- odd the other of Rs.50,000/-. The former

former was, I believe, absol te, while the latter was in one order called either a grant or a loan, and in another an item debitable to "Plague".

7 Out of the total of these two sanctions aggregating Rs.56 thousand odd, only Rs.15,930-5-10. seems to have been spent upto the end of June 1901. What the amount since spent has been, the papers before me do not show. The finances of the Board are in an extremely impoverished condition. There are several big projects which without the aid of Government it is impossible for the Municipality to carry out and, which therefore may be reserved for separate treatment. In regard however to the said sum of Rs 56 thousand odd, we might say at once that Government are pleased to treat it as a special grant debitable to State Funds, and that both the amount already spent and that to be hereafter expended be dealt with accordingly. This in my humble opinion requires no new sanction.

Of this Rs 15,131-8-7 lies at the debit of the Provincial Funds in the P. W. D & Rs 1,571-4-3 has been transferred to and accepted by the Civil department

16 In reply, the Comptroller gives in detail the facts of the case and states that it was never intended that part of the expenditure should be debited to the P.W. and part to the Civil department. He considers that the outlay is one adjustable in the books of the P.W. department for the following reasons:—

(a) The greater part (Rs 15,131-8-7) of the outlay on these works had already been incurred in previous years (1898-99 & 1899-1900) in the P.W. Deptt and charged in the Examiner's Books as the Provincial Funds (Sanitary grant

for these years, and the balance which required to be adjusted was only Rs 1571-4-3

(b) If the outlay incurred had to be adjusted in Civil Books, the sum will have to be written back from the P. W. Books and debited in Civil and treated as an excess over the Civil Budget. But if it is adjusted in the D. P. W. the outlay that will have to be charged against the grant for current year will be only Rs 1571-4-3

(c) The works having been carried out in the P. W. D. the outlay has to be accounted for finally in the Books of that department as per order of Govt conveyed in para 30 of Pro: no Fe 1150-1492 dt 7th Feb: 1903. And with-

9 In this connection the Chief Engineer forwards a copy of Docket addressed to him by the Superintending Engineer Eastern Circle No 3391 dated 18th August 1903 and requests early sanction to the estimate of Rs 125,000 for opening out conservancy lanes in the Bangalore City, now before Government. In his above communication, the Supdtg Engineer brings to notice that the estimate of Rs 125,000 provides for works to be carried out by the P. W. D to the extent of Rs 14,34 only, the balance, Rs 1,10,659 representing the cost of compensation of lands to be acquired by the Revenue Department. out of the D. P. W portion of the cost of the project, viz Rs 14,341, so much as Rs 10,501 has already been incurred leaving a small balance

balance of Rs 3840 to be worked out and that ~~the~~ work to this extent cannot be carried out till Govt allot funds for the purpose

10 It is submitted that of out of the project for Rs 1.25000 now pending before Govt. only Rs 14.341 represents the D. S. W portion as stated by the Superintending Engr the balance to be expended by the Revenue Department on account of compensation for houses and lands to be acquired and dismantled is Rs 1.10.659. Out of this sum an expenditure of Rs 74.054 has been incurred upto the end of June 1900 and a loan of Rs 15000 was sanctioned in Pro c/o 4916-18 / L-743-98 dated 5th October 1900, and the President requested to submit an agreement for this sum. viz Rs 89054 plus 10000 Rs sanctioned for the Chamarajendrapete Drainage project. Thus the balance remaining to be sanctioned for this portion of the work is only (1.10659 — 89054) Rs 21605; which can be met from the loan of (Rs 30000 ~~was~~ in the current years Final Budget as sanctioned ~~account~~ of loans to the Bangalore City municipality in Pro c/o H 413-4 / L 318-98 dy 12th Augt 1903

Subject Letter no 5932 dated the 2d November 1903 from the Chief Engineer of Mysore requesting orders on the project for opening out roads and lanes in the Bangalore City & the Drainage scheme thereof.

The estimates relating to the work of opening out roads and lanes in the Bangalore City was received from the Chief Engineer so far back as February 1901. The whole project is estimated to cost Rs 125,000/-. The work was put in hand in 1900 in anticipation Government sanction and a of Rs 74,054/- was spent up to the end of June 1900

5th October 1900 Government decided to treat the expenditure as a loan to the municipality and observed that the expenditure must in due course be debited to municipal funds. They also sanctioned a further loan of Rs 15,000/- for the work (besides Rs 10,000/- for Chamarajendrapete drainage) and requested the President to submit an agreement for the whole amount of Rs 99,054/-.

Thereupon, the Board's request to be furnished with details of the expenditure of Rs 74,054/- led to further correspondence in the matter. The details then obtained are comprised in statements vide nos: 15/a & 13/a.

The matter having therefore been placed before the Board, the following resolution was arrived at:-

"Resolved that as the work was undertaken under special circumstances, Government be requested to excuse the interest and to allow the Board to repay the loan by 30 annual instalments out of the current revenues from the year 1901-02"

6- Government were not however disposed to grant further loans and the whole question therefore reduced itself to permitting the Municipality to raise the necessary funds in the open market

To enable the Board to repay such a public debt certain reliefs were applied for, viz, Medical Charitable and Educational charges In this connection the propriety of withholding the Municipal grant of Rs 200/- a month to St Martin's Hospital was doubted, and enquiry was made as to whether that Institution had fulfilled all the conditions of the grant

The estimate which has long been pending and of which all but Rs. 2544.0 has already been worked out has of course to be sanctioned, the drainage scheme being reserved for further investigation. Whether this is to be a gift or a loan may be considered along with the notes regarding relief now under the consideration of Council. In one of those notes are, I believe, included the two sums of Rs. 89,054 and Rs. 10,000 referred to above.

The Board's proposal to engage an expert for the preparation of a less costly scheme is, I believe, pending orders in connection with the proposed appointment of an Engineer as President or Vice President. The scheme should be dealt with as a whole and not in a fragmentary manner as suggested in the D.P.W. note. At the same time, To the necessary action being taken to meet the immediate requirements of Chamarajapet and to a sum not exceeding Rs. 10,000 expressly sanctioned therefor being spent for the purpose, I see no objection. I do not think this need wait for the elaboration of a costly scheme for the whole City and for arrangements for the provision of funds therefor.

3. The Government now consider it sufficient to sanction, by way of oan to the Municipality, a further advance of Rs. 25,000 (Rs. 15,000 for opening out roads and lanes, &c., and Rs. 10,000 for drainage of Chamarajendrapet), as provided for in the current year's Sanitary Works budget. The total amount which the Municipal Commissioners have to repay to Government, under the usual conditions as laid down in Government Proceedings No. 11541-50—L. F. 262-96, dated 14th April 1899, is accordingly Rs. 99,054, and the President should at once submit an agreement therefor in the prescribed form. Any additional amount required for expenditure on the purposes above specified, should, as already directed by Government, be obtained by the Municipal Commissioners by raising a loan in the open market on terms to be reported to Government for confirmation.

No. 503

From The Chief

To The Secretary to the Bangalore City Improvement Committee

Sir,

In compliance with the request contained in your letter No. 1127 dated the 6th July last forwarded herewith a statement of houses demolished relating to the proposed for opening out congested parts of the Bangalore City together with (3) Letters No. 1130 dated 19th January last from the Dy. Commr. Bangalore for favor of submission thereto.

The following details for the amounts referred to are Rs 65,124-12-10 paid for acquiring houses for the City Improvement.

Order thereon

In the first of the Chief Engineer's letters read above, it was stated that a sum of Rs 74054 alluded to in

A.P.J.

Rs No $\frac{4916-8}{L843-98}$ (Srd 20) of 5-10-00
an expenditure of Rs 9412-8-7
was incurred by the Sanitary
Deptt up to 31st Oct. 1900 and
that details for the balance
should be obtained from the
Rev. Deptt, by whom the amount
was expended. The D.J. Conr.
who was accordingly addres
-ed, Submits a statement
of expenditure amounting to of Rs 65,124-12-10
incurred by the Rev. Deptt. on
account of compensation of
houses demolished. Thus
the aggregate outlay in-
curred by both the Deptts.
comes to Rs (9412-8-7 +
65124-12-10) 74,537-5-5
which is in excess of Rupees
74,054 by Rs 483-5-5.
The Chief Engineer is there
fore requested to state whe
ther the former amount, viz
Rs 74537-5-5 has to be
substituted for Rs 74054

entered

entered in Pro. 7 5-10-00.
as recoverable from the City Municipality

Moreover in the detailed
Statement now furnished by the
Chief Eng. ~~is there~~ no com-
~~mission~~ to enter the total of the
items comprised therein, nor
is it clear whether the ex-
penditure therein shown
was incurred by the Sanitar,
Deptt only or by the Rev. Dy
also. The total of the several
items included in the Statement
according to the red ink alter-
ations therein made comes
to Rs 73,454-2-. which does
not correspond with the
figure (Rs 74054) entered
in Pro. 7 5 Oct. 1900 or with
the aggregate of expenditure
Rs 74537 5-5 referred to above

has been entered

These discrepancies should
be explained & the Statement
hereinto returned may be
returned, the total
being duly noted therein.

H .V. Nunjundaiyya Esquire, M.A, M.L.

Secretary to Government of H.H. the Maharajah of Mysore,
General and Revenue Departments.

Sir,

In continuation of this office No. 6565 of the 13th November 1902, asking for the early orders of government on the project of Rs.1,25,000 for opening out roads and lanes in the congested parts of the Bangalore City submitted with this office No.503 dated 4-2-01, I have the honor to forward the enclosed copies of docket No.5338 of 14th ultimo and of its enclosure received from the Superintending Engineer Eastern Circle, on the advisability of taking up the question of the Drainage of the Chamarajendrapet and to request that, for the reasons adduced by Mr. Whiteley you will be so good as to obtain the early orders of Government on the above project as well as on that for the drainage of the Bangalore City amounting to Rs. 10,64,000 which was submitted to the Dewan with this office Mem. of 28th October 1900 and which it is believed has been transferred to the General and Revenue Secretariat.

I have the honor to be

Sir,

Your most obedient servant,

W. Hutchin

Captain R.E.

For Chief Engineer of Mysore

Docket No: 5338 dated 14th October 1903 from the Supdg: Engineer, Eastern Circle to the Chief Engineer of Mysore.

Ewd to Servs

Has the honor to forward a copy of Sanitary Range Assistant Engineer's No: 358 of 7-10-03 with marginal remarks by Undersigned for favor of orders in the matter.

The Range Officer's Report represents clearly how matters stand, and in the last para he adduces reasons for taking up the question, and for, if possible, starting the work.

2. It will be seen that, so far, Government has promised a loan of Rs10,000 this would only serve for a very small portion of the whole work, the Estimate for which, prepared by Mr. Standish Lee, amounts to Rs 1,48,173 and is embodied in the Complete Estimate, prepared by the same Officer for Rs 10,64,000 for the City as well as the Western Extension (Chamarajendrapet) submitted to Government by the Chief Engineer in October 1900.

3. The work up to Rs 10,000 was ordered to be put in hand in Chief Engin No 92 of 16-10-'00, but nothing was put forward in the

start should be made with the Chamarajendrapet Drainage, the first thing to be done, Undersigned considers, is that it should be determined whether funds sufficient to complete, or at any rate to carry out the main items required, are likely to be available. If so the Estimate should be checked and it should be finally decided, in view of recent enquires re: Pipes to be used at Mysore, what kind of Pipes should be used here.

It would not be to much purpose starting work on the promise of a very small loan only, and it would be advisable that it should be ascertained from the General Secretary to Government what steps the Municipality have taken or are prepared to take with the object of providing funds

Undersigned makes this reference, as, in view of requisitions (regarding items of the General Drainage Scheme included in the Estimate for Rs 10,64,000) which are being received piecemeal, it appears advisable that Govt should pass Orders on the General Scheme

Docket No: 358 dated 7th October 1903 from the Assistant Engineer Sanitary Range to the Supty. Engineer Eastern Circle.,

Has the honor to submit herewith

for information and orders a Report on the Drainage Scheme for the Bangalore City. The fole of papers on the subject with the references marked are also submitted for reference and kind return.

2. A project for the Drainage of the Bangalore City (the Pette and Chamarajendra-pet) amounting to Rs 10,64,000 was pre-pared and submitted by the Suptg: Engineer Sanitary Works in July 1900, as called for by Government in Proceedings No: 14683-7/Mis. 30-98 dated 10th May 1898 and in accordance with instructions contained in the Dewan's note dated 19-5-99 (Vide Suptg: Engineer's No: 1448/290 of 13-7-00) and the Govern-ment called upon the Municipality to submit proposals to meet the cost thereof, as the whole cost should be borne by them; Government further ordered that the amounts should be obtained by the Municipality by raising a loan in the open Market, as the Government was not in a position to lend them.

The Municipality requested Govt to make a beginning with the Drainage of the Western Extension, and requested Govt. to advance funds up to a money limit of

two lakhs of Rupees for the Drainage of Cha-
-marajendrapet and also the Opening out
of Roads and Lanes in the congested parts
of the Bangalore City (which had also been
ordered to be carried out from Municipal
Funds by the Government) on the ground
that the present is not an opportune moment
for raising a loan. The estimated cost of the
Drainage of Chamarajendrapet alone is
Rs 1,48,173 and of opening out Roads and
lanes &c * Rs. 1,25,000. Government thereupon
sanctioned by way of loan to the Municipality
(in addition to Rs 74,054, already spent on
opening out Roads &c in the City by Govt:)
Rs 25,000- (Rs 15,000) for Opening out Roads
and lanes * &c and Rs 10,000 for Drainage of
Chamarajendrapet) and ordered that
"any additional amount required for expendi-
-ture on the purposes above specified should
as already directed by Government be obtained
by the Municipal Commissioners by raising
a loan in the open market," (Vide Government
Proceedings No: 4916-18/L.F. 48-98 of 5-10-00.
The Chief Engineer thereon submitted to Govt:
for formal sanction in the Municipal De-
partment the 2 Projects i.e., for opening
out Roads and Lanes &c and the Drainage

* for the City

* in the City

One for Rs 1,25,000 for opening out & lanes and the other for Rs,

Rs: 10,64,000 for Drainage of whole City including Western Extension.

of the Whole City and ordered the Supdtg: Engineer Sanitary Works to proceed with the works in question to the extent of the additional amount sanctioned in the above Proceedings (Vide Chief Engineer's No: 4891 of 16-10-00 to the General Secretary.

4. The Supdtg: Engineer, Sanitary Works then solicited instructions as to the kind of Pipes to be used for the Chamarajendrapet Drainage i.e. whether Cement Pipes or Stone-ware Pipes. After some correspondence on the subject, and inspection of the Cement Pipes in stock, in Messrs Arbuthnot & Co's Works and the Pipes already laid in the City, the results of tests by Captain Lotbinierre on the Cement Pipes and joints were forwarded to the Supdtg: Engineer, Sanitary Works with the Deputy Chief Engineer's opinion that the strength of the samples were very satisfactory, (Vide Chief Engineer's No: 2446 of 1-5-01. to Supdtg: Engineer) but no final orders as to the kind of Pipes to be used were given.

5. The Estimate for the work not having however been received sanctioned from Government, the work could not be put in hand as the tenders for the work could

not be disposed of in the absence of sanctioned Estimates, and no further steps were taken in the matter

The latest order on the subject is 6
Chief Engineer's No. 1407 of 11-3-01 to Supdg: Engineer, Sanitary Works informing that the Project for the Drainage of Chamarajendrapet was submitted to Govt on the 24th December 1900, and no order thereon had yet been received and that a reminder would be sent.

The position now is that Government 7.
have sanctioned a loan of Rs 10,000 to the Municipality for the Drainage of Chamarajendra-pet (Estimate Rs 1,48,173) and ordered work to that extent to be done, but have not yet sanctioned the Estimate. It is moreover not known if funds will be forthcoming for the rest of the work after the Rs 10,000 has been spent, nor have any orders been received regarding the Drainage of the rest of the City.

It appears therefore desirable to obtain early orders on the above and sanction to carry out the work at least in Chamarajendrapet immediately, where there being

no drain of any kind at present, the Sewage stagnates and sinks in the backyards of the houses, and thus makes the place more unhealthy than the old Petta, where every street and Lane has some kind of Drain, though rude by which the Sewage is carried away from the vicinity of houses without stagnation. This extension was laid out 10 years ago and the Sewage has been soaking in the soil ever since then. The necessity for properly sewering it at an early date without room for further contamination, cannot be too strongly urged.

No. 4706-10—L. F. 43-98, DATED BANGALORE, 4TH JUNE 1904.

ORDER THEREON.—Government have from time to time sanctioned advances amounting to Rs. 3,15,000 for the improvement of the Bangalore City and for the opening of the Basavangudi and Malleswaram Extensions.

Bangalore City Improvements.

2. The improvement to the Bangalore City which chiefly comprised the opening out of roads and lanes in the congested parts, rendered necessary mainly on account of the prevalence and ravages of plague, were estimated to cost Rs. 1,25,000. Out of this, compensation amounting to Rs. 86,711-3-1 has been paid by the Revenue Department, and work to the extent of Rs. 10,501 has been carried out by the Public Works Department up to the end of June 1903. To this has to be added the expenditure of Rs. 16,872-8-4 incurred by the Revenue Department on account of the marginally noted items.

	Rs.	a.	p.
1. Establishment charges ...	14,514	10	7
2. Laying pipes	1,242	9	1
3. Wages, etc., for opening out roads.	628	13	8
4. Travelling allowances ...	30	7	0
5. Law charges	456	0	0

3. The sum of Rs. 10,501 spent by the Public Works Department having already been debited to the Public Works budget, the total expenditure of Rs. 1,03,583-11-5 incurred by the Revenue Department out of the advance of Rs. 3,15,000, will also be finally debited to the State Funds, as the Municipality is not in a position to repay the advances and as the expenditure, though properly debitable to the Municipality, was incurred at a time when the ordinary machinery of the Municipal Administration was in a state of collapse and immediate relief towards removing the existing congestion of population was considered urgent on account of the pressing necessities of plague. But the Municipality will be distinctly made to understand that it should not expect any further assistance of the kind from Government, and that the balance of the amount necessary to complete the works of improvement, which are estimated to cost Rs. 27,787-12-11, as shown in the margin, should be met from Municipal Funds. The estimate for Rs. 1,25,000 received from the Chief Engineer will, therefore, be forwarded to the President of the City Municipality with a request that he will point out the source from which the sum of Rs. 27,787-12-11 could be met. The ~~Public Works Department portion of the~~ work will of course be completed by the Public Works Department. If the Municipality will not consent to do this voluntarily, and will neglect to do the required work, Government will be compelled to take action under Sections 192 and 193 of the Municipal Regulations to get the necessary work done and levy its cost from the Municipality.

	Rs.	a.	p.
Amount required for payment of compensation.	23,947	12	11
Public Works Department charges.	3,840	0	0

4. In addition to the expenditure debited to the Public Works Department budget, the actual amount spent up to the end of 1902-03 by the Revenue or Civil Department on the Extensions is Rs. 1,78,283-13-7. Out of this, a sum of Rs. 54,150-5-5 has already been realized by way of sale proceeds of sites, and another sum of Rs. 50,000 may probably be realized in due course hereafter. This expenditure is of a special nature and had its origin in connection with measures for the prevention of the spread of plague by affording people in the congested parts of the City suitable building sites at a distance therefrom. The Municipality is in an utterly helpless position to undertake the financing of the two new Extensions (Basavangudi and Malleswaram). The Government of His Highness the Maharaja are therefore pleased to direct that the amount in question, *viz.*, Rs. 1,78,283-13-7, be removed from the list of adjustable advances and charged finally to State Funds in the same way as other expenditure on the same work, incurred by the Public Works Department, has been dealt with.

Extensions of the Bangalore City.

5. All recoveries on account of the price of sites must continue to be made and credited to Government as in the past; and the responsibility for prompt collection, which rests on the Deputy Commissioner, will be emphasized. No more sums will hereafter be drawn from the balance remaining out of the advance of Rs. 3,15,000 referred to in para 1 *supra*.

6. Loans granted to the Municipality from time to time amount to Rs. 1,70,996 as shown below :—

Loans due by the Bangalore City Municipality.

		Rs.
1.	For urgent expenses . . .	... 20,000
2.	On account of the low finance of the Municipality	... 40,000
3.	For opening out congested parts ..	... 5,942
4.	(a) For opening out congested parts, etc. ...	... 74,054
	(b) Ditto ditto ...	... 15,000
	(c) For drainage of Chamrajpete ..	... 10,000
	Total	.. 1,70,996

Local Boards Branch, Municipal, dated 4th June 1904

7. Loans Nos 1 and 2, which were intended to enable the Board to tide over temporary difficulties, must be repaid by them In fact about Rs. 27,659-1-11 has already been recovered, leaving a balance of Rs 38,340-14-1, which should be recovered with interest at 4 per cent per annum by the Comptroller from the funds of the Municipality in annual instalments of Rs. 10,000 commencing from 1st July 1904, the interest due being first deducted out of each instalment and the remainder credited to the principal loan.

The work for which loan No 3 was advanced being of the same nature as that referred to in paras 2 and 3 *supra*, in which the amount has been ordered to be treated as a State Grant, the amount involved, *viz*, Rs. 5,942, will also be treated as a State Grant and written off the adjustable accounts

The sum of Rs. 74,054 (item 4 (*a*) which, though intended as a separate loan, was really debited to and is included in the advance of Rs. 1,03,583-11-5 referred to in para 3 above, will also be written off the accounts

Items 4 (b) and (c) have not yet been advanced and they will not, hereafter be allowed to be drawn. The drainage of Chamrajpete for which the loan of Rs. 10,000 item 4 (c) was intended, will be separately dealt with as a comprehensive measure.

8. It is to be clearly understood that the policy of Government is not to make loans and advances to Municipalities when the prospects of repayment are remote or non-existent. In future no loan will be granted unless some definite source of revenue can be assigned for repayment, taxation being increased, if necessary, for the purpose or possible economies demonstrated and effected. When any extensive improvements are necessitated by plague or other extraordinary visitation or calamity, the cost thereof will be borne by Government, provided that suitable precautions are taken for the proper expenditure of grants made. With this object in view, and having regard to the fact that for the improvement of the Mysore City an yearly allotment of funds has been made and a Board of Trust created, the Government of His Highness the Maharaja are pleased to sanction an annual grant not exceeding a lakh of rupees for the next five years to be utilized and spent for permanent improvements of the Bangalore City not falling within the legitimate scope of the obligations of the Municipality.

9. Government take this opportunity to observe that the Municipal finances are in a most unsatisfactory condition and that no improvement is discernible in spite of the many injunctions from Government in this behalf repeated during the last several years. In order to enable Government to decide how the present unsatisfactory state of affairs can be remedied, they have considered it necessary and are pleased to appoint a Committee composed of the Comptroller as President, and the Deputy Commissioner of the Bangalore District and Mr Nagavakai, President of the Municipalities, as members, to go into the question fully and submit a report as early as possible not later than the 31st of July 1904 with detailed recommendations for orders. The Committee should examine fully the question of the resources of the Municipality and the required expenditure, suggest proposals to maintain a healthy equilibrium, revise the establishment and in short submit a workable scheme which will place the finances on an efficient footing and enable the Municipality to carry on the work in a thoroughly business-like manner. The mode and the machinery of assessment and prompt collection should also be specially considered.
